## SUMMARY

I am a graduate in Information Technology from Technological University of the Philippines - Taguig, passionate about software development and technology. With a solid foundation in programming and development, I'm excited to apply my skills to create innovative solutions and contribute to the tech field.

## EXPERIENCE

**Capstone Solutions (Front End Developer)**

Nov 2024 - Present

- Developed the frontend for an automated school grading system using React.js + Vite.
- Built interfaces for Form 137, School Form 1, School Form 2, ECR (Electronic Card Record), and Class Card.
- Automated student grading and record-keeping for improved efficiency.
- Designed a responsive and user-friendly interface for school administrators and teachers.

**HR Primo Management Services (Junior Web Developer Intern)**

May 2024 - July 2024

- Led a team in developing and maintaining web applications using PHP.
- Built and optimized the ATS (Automated Tracking System) for efficient recruitment management.
- Integrated databases and optimized SQL queries for improved system performance.
- Debugged and resolved technical issues to ensure seamless system functionality.

## PROJECTS

**Gia Portfolio Website**

Jan 2025

- Designed and developed a personal portfolio website using React.js + Vite.
- Built sections including Hero, Workflow, Projects, Testimonials, and Contact Me pages.
- Ensured a responsive and modern UI/UX for a seamless user experience.
- Implemented EmailJS on the Contact Me page to allow users to send emails directly.

**Tapanic Senior High School System (Front End)**

May 2024 - July 2024

- Developed the frontend for a school management system using React.js + Vite.
- Built interfaces for student information, grading, and record management.
- Designed a responsive and user-friendly UI for teachers and administrators.
- Ensured seamless data handling for school records and reports.

**Capstone Solutions Portfolio Website**

Oct 2024

- Designed and developed the Capstone Solutions portfolio website using React.js.
- Built sections including Home, Services, Portfolio, and Our Team pages.
- Created a responsive and modern layout to showcase the company's services and team.
- Integrated interactive elements to enhance user experience and engagement.

**Quick Form (GOVIRTUAL) (Front End)**

July 2024

- Developed the frontend for Quick Form (MVP), allowing users to drag and drop components such as Input, Radio, 2 Columns, Dropdown and etc.
- Enabled users to style text, background, and input colors for custom form creation.
- Created a feature to generate and preview forms based on user inputs.

## EDUCATION

---

Technological University of the Philippines  
Bachelor of Science in Information Technology

September 2020 - November 2024

## SKILLS

---

### FRONT END

- React JS, Vite, HTML, JavaScript, TailwindCSS, HeroUI, Bootstrap ,Prime React, Ant Design

### BACK END

- NODEJS, EXPRESS, LARAVEL, PHP, C++

### MOBILE

- REACT NATIVE

### DATABASE

- MONGODB, MYSQL

### OTHER SKILLS

- PHOTOSHOP, PREMIERE PRO, CANVA

## CERTIFICATION & SEMINARS

---

- IT Careers and its role in software development life cycle.
- Art of adapting and learning the art mobile and software application development.
- Servers in your fingertips through cloud computing.
- Blockchain development: the ultimate crash course.
- How to elevate web games with AI.
- Navigating the data privacy maze.
